Monoclonal Antibody Facility Price List 2019

Detailed price list

		prices in EUROS (€) for	Academics	Companies
Immunization & Serum Screen				
Phase I	Immunization of 4 mice up to 4 s.c. injections per mouse and collection of up to 3 blood sera per mice Screening of sera by Western blot		1 500	2 250
			250	375
	MINIMUM PRICE FOR PHASE I		1 750	2 625
	<div style="border: 1px solid black; padding: 5px; display: inline-block;"> after phase I → Decision to continue with specific mouse based on WB and/or customer screening of sera </div>			
Splenocyte Fusion				
Phase II	Final i.v./i.p. boost of selected mouse, final bleed, splenectomy & fusion includes fusion of splenocytes, plating on 4x 24 wells + 4x 96 wells, plating of remainder on p150 petri dishes, cryopreservation of remainder after 6-7 days Screening of fusion by Western blot Cryopreservation of up to 6 mix clones		1 800	2 700
			1 000	1 500
			200	300
	MINIMUM PRICE FOR PHASE II		3 000	4500
<div style="border: 1px solid black; padding: 5px; display: inline-block;"> after phase II → Decision to continue with specific mixclone based on WB and/or customer screening of mixclone supernatants </div>				
Single-cell cloning & mAb production				
Phase III	Minimal Diution of 1 parental hybridoma mixclone Screening of Subcloning by Western blot Cryopreservation (5 vials per single clone hybridoma) Antibody production (50ml)		700	1050
			1 000	1 500
			200	300
			250	375
	MINIMUM PRICE FOR PHASE III		2 150	3 225
TOTAL MINIMUM PRICE AFTER COMPLETION OF ALL PHASES			6 900	10 350

Detailed price list

Additional services

additional 2 injections with collection of blood sera	400	600
Western Blot (per gel)	250	375
ELISA (per plate)	150	225
IF	*	*
Isotyping	200	300
Adaptation to selection-free medium	1500	2250
Protein purification by EluTrap electroelution	500	750

* prizes upon request
