Main research area

Meiosis, DNA repair, recombination, *Arabidopsis*

Academic career and positions held to date

1996 – 1998	Diploma student, University of Vienna
1998 – 2002	PhD student at the Institute of Botany, University of Vienna, Austria
2002	Post-doc at the Institute of Botany, University of Vienna, Austria
2003 – 2010	Independent research group leader at the Department of Chromosome Biology, Max F. Perutz Laboratories, University of Vienna
2007 – 2010	APART fellowship of the Austrian Academy of Sciences
2010 – 2012	Assistant Professor at the Department of Chromosome Biology, Max F. Perutz Laboratories, University of Vienna
2012 – present	Associate Professor at the Department of Chromosome Biology, Max F. Perutz Laboratories, University of Vienna
2017 – present	Vice Dean for Teaching at the Center of Molecular Biology / Max F. Perutz Laboratories / University of Vienna
