

Karagöz Lab

Research Technician

About the Karagöz lab

The Karagöz Lab combines cell biology, *in vitro* reconstitution and structural biology to dissect cellular protein-quality control pathways. Currently, our team consists of a group of talented PhD and Master students working on diverse topics to reveal how cells respond to proteotoxic stress.

About the position

We are looking for a highly motivated **research technician** with a passion for science to join our team at the Max Perutz Labs Vienna.

Candidates

Successful candidates will

- contribute to the on-going projects in the lab
- be involved in general laboratory organization (e.g. overseeing day to day operations, maintaining supplies)
- test and establish reagents (e.g. molecular cloning, mammalian cell culture, generation of stable cell lines)
- perform recombinant protein expression and purification (i.e. bacteria and insect cells)
- support and train the lab members
- be an active team member (e.g. attending group meetings, journal clubs, exchanging ideas)

We are looking for a candidate with

- basic knowledge in biochemistry, molecular and cell biology
- hands-on experience in basic molecular and cell biology methods
- motivation to learn and establish assays and methods
- fluency in English and good communication skills

Application

- Please send your **CV, motivation letter** and **contact details of two references** by e-mail to Elif.karagoez@univie.ac.at
- Initial deadline for the application is **March 15th 2021**. If not filled, the review of applications will continue thereafter until the position is filled.
- The full-time position is **open from April 15th 2021**. An initial contract will be for nine months with the possibility of extension for multiple years.

Contact

For further details, please do not hesitate to contact Elif Karagöz

E-mail: elif.karagoez@univie.ac.at

About the Max Perutz Labs

The Max Perutz Labs are a research institute established by the University of Vienna and the Medical University of Vienna to provide an environment for excellent, internationally recognized research and education in the field of Molecular Biology. Dedicated to a mechanistic understanding of fundamental biomedical processes, scientists at the Max Perutz Labs aim to link breakthroughs in basic research to advances in human health. The Max Perutz Labs are located at the [Vienna BioCenter](#), one of Europe's hotspots for Life Sciences, and host around 50 research groups, involving more than 450 scientists and staff from 40 nations.
