

## Karagöz lab

# Research Technician

## About the Karagöz lab

We are looking for a highly motivated **Research Technician who has a passion for science** and excellent organizational and communication skills to join our team at the Max Perutz Labs in Vienna. The [Karagöz lab](#) combines cell biology and *in vitro* reconstitution to dissect cellular protein-quality control pathways. Currently, our team consists of a talented group of PhD students working on various topics in protein quality control.

## Candidates

The successful candidate will be responsible for:

- General laboratory organization (e.g. overseeing day-to-day operations, maintaining lab supplies)
- Testing and establishing reagents (e.g. molecular cloning, cell culture, generation of genome-edited stable mammalian cell lines)
- Recombinant protein expression and purification (i.e. bacteria and insect cells)
- Teamwork (supporting and training lab members)
- Active involvement in our team (e.g. attending group meetings, journal clubs, exchanging ideas)

Desired skills and qualities:

- Excellent management and organizational skills
- Solid knowledge in biochemistry, molecular biology, and cell biology
- Hands-on experience in basic molecular and cell biology methods
- Motivation to learn and establish new methods and assays
- Fluency in English and strong communication and social skills

## Application

This is a full-time position **open from the 1<sup>st</sup> of July**. However, we are open to applicants who want to work part-time. An initial contract will be for a year, with the possibility of extension for multiple years. **The salary will be based on the FWF salary scale.**

Applications consisting of a letter of motivation, a CV, and the contact details of two reference persons should be sent electronically to [elif.karagoez@maxperutzlabs.ac.at](mailto:elif.karagoez@maxperutzlabs.ac.at). We will start reviewing applications on **June 1, 2026**. There is no deadline for the application; the review of applications will continue until the position is filled.

## About the Max Perutz Labs

The Max Perutz Labs are a research institute established by the University of Vienna and the Medical University of Vienna to provide an environment for excellent, internationally recognized research and education in the field of Molecular Biology. Dedicated to a mechanistic understanding of fundamental biomedical processes, scientists at the Max Perutz Labs aim to link breakthroughs in basic research to advances in human health. The Max Perutz Labs are located at the [Vienna BioCenter](#), one of Europe's hotspots for Life Sciences, and host around 40 research groups, involving approximately 450 scientists and staff from more than 50 nations.
