Mission Statement
The Max Perutz Labs are dedicated to a mechanistic understanding of important biological processes. We have the potential to catalyze groundbreaking discoveries in mechanistic biomedicine.

We combine world-class research facilities with modern teaching methods to educate, inspire, and empower the next generation of 21st century scientists.

Joint Venture
The Max Perutz Labs are a joint venture between the University of Vienna and the Medical University of Vienna that builds on the unique opportunities that arise from being embedded in the Vienna BioCenter Campus while having one of the largest hospitals in Europe, the Vienna General Hospital, on our doorstep.

In visualizing haemoglobin, Max Perutz paved the way towards the era of precision medicine. To realize its full potential, precision medicine necessitates a molecular mechanistic approach.
