

Mission Statement

The Max Perutz Labs are dedicated to a mechanistic understanding of fundamental biomedical processes. By analyzing and reconstituting complex biological systems across different scales, our scientists aim to link breakthroughs in basic research to advances in human health.

Joint Venture

The Max Perutz Labs are a joint venture between the University of Vienna and the Medical University of Vienna that builds on the unique opportunities that arise from being embedded in the Vienna BioCenter Campus while having one of the largest hospitals in Europe, the Vienna General Hospital, on our doorstep.

In visualizing haemoglobin, Max Perutz paved the way towards the era of precision medicine. To realize its full potential, precision medicine necessitates a molecular mechanistic approach.
